DISTRICT DEPUTY VISITS THE LOCAL HEPTASOPHS.

Charles Peterson Tells of Work of Building Up the Order—Special Work for Norwich.

District Deputy Supreme Archon Charles Peterson of New Haven paid a visit to Norwich on Monday, Aug. 28, 1911, to visit the local Heptasophs, at a regular meeting on Monday evening. The visitor brought an encouraging account of the work of building up the order throughout the country and the district for this purpose and organized at work bringing in new members and infusing new life into the various conclaves. For three weeks he organized his men working in New Haven where there are four conclaves, and Mr. Peterson said that he had succeeded in enrolling 33 1-3 per cent. of all the names of membership possibilities handed to him. The organizer is scheduled for a visit to Norwich to help out the local conclaves, but it will be two months before he gets here, as several other cities have prior claims on him.

Archon James J. Flynn presided at the session and Daniel Williams, commissioned as local organizer by order of the supreme council.

TRACER WILL BE STARTED FOR THE BRICK.

The small roller which was secured from Providence when the other brick pavement was laid has been secured for this work, and it was unloaded on Monday and taken to the city barn under its own power.

The laying of the block pavement in Market street is now underway, the street being torn up and made ready for the work practically to Commerce street.

RAIN DID MUCH GOOD BUT QUANTITY NOT LARGE.

Will Help Reservoir to Hold Its Own for a Few Days—Total of 1.22 inches Since Friday.

Although it looked as if the month of August was to be the smallest on record for rainfall, the past few days have helped materially in getting a crop of a few inches of rain. The month has been increased to 1.78 inches, with the possibility of some more, up to Friday, the rainfall had been .58 of an inch, but since that time 1.22 inches fell, covering a period of four days. With the exception of a few showers the rain was gentle and practically all of it soaked into the ground, which will replenish the wells and springs, and they are in good condition.

It is expected that the rainfall to help it maintain its level of 1.84 as shown on Sunday for a few days, but it will not add materially to the supply.

Mr. Story, who is a member of a M. C. A. party camping with Frank H. Merrill, formerly of this city, at the Point. When the canoe capsized the man had started to swim, but he was unable to do so, and went down once. When he came to the surface he turned on his back and was floating in this position when discovered by Mr. Story. His prompt action saved the young man's life and all the members of the party were profuse in their thanks to Mr. Story.
